## Post-Doctoral Research Fellowships in ‘Artificial Intelligence’ for ‘Industry 4.0’

The i4AI Lab currently offers 5 prestigious two-year under 35's post-doctoral fellowships in the above emerging and exciting area. If you speak perfect English, Chinese or both, and have a PhD in artificial intelligence, computing science, industrial design, manufacturing or engineering management, you would have an advantage, although any PhD in engineering, technology, mathematics or science with a substantial computing element (e.g., pattern recognition for mass or customised healthcare) would also be very welcome. The ultimate goal of this fellowship is to develop you into a formidable candidate for a full professorship in China at the end of the two years.

- **Salary:** RMB ¥380,000 - ¥730,000 per annum, depending on experience and qualification.
- **Allowances:** Housing allowance ¥2500/month, canteen allowance ¥3000/year, plus allowances for career development following graduation at the end of the two years.
- **Start-up research funding:** ¥300,000, plus extra ¥100,000 on need.
- **Duration:** Two-year fixed term, extendable for two more years, full-time.

You will be joining a dedicated team that develops an “Industry 4.0” innovation and smart design system on a high-performance computing (HPC) platform at the Dongguan University of Technology (DGUT). You will have an opportunity of spending a period of time at University of Strathclyde in the U.K., at the University of Electronic Science and Technology of China, or at South China University of Technology. With us, you will find your talent gains an opportunity of broad applications and makes an impact to local, national and international industrial practice to benefit economic development and societal wellbeing.

The Lab is led by Professor Yun Li, the Founding Director of University of Glasgow Singapore, who has 28 years of lecturing and PhD supervising experience in the U.K. The Lab at DGUT is situated in the picturesque Songshan Lake National High-Tech Industrial Development Zone, overlooking across the lake Huawei Technologies’ European-style 10,000-researcher strong new R&D Centre in Dongguan, Pearl River Delta. Dongguan is the world’s manufacturing hub, moving into an innovation hub. For what an expat’s life may be like there, you may surf: <http://www.heredg.com/> or <https://www.internations.org/dongguan-expats>

- For details, see [http://www.i4ai.org/work\\_with\\_us/](http://www.i4ai.org/work_with_us/)
- For application, send your full cv or queries to [i4aiLab@outlook.com](mailto:i4aiLab@outlook.com)

诚聘研究人员、工程师及高层次人才：包括学科骨干、副教授、教授  
(基础年薪分别为¥40、60、80万元，住房补贴60、100、150万元 - 详见 <http://www.dgut.edu.cn>)

申请、问询请联系：[i4aiLab@outlook.com](mailto:i4aiLab@outlook.com)
